

MOODY STIRRED UP A MIGHTY FLAME.

Scores of Penitents Arose at
the Call for Souls to
Be Saved.

"Rock of Ages" Was the Hymn
to Which They Marched to
the Anxious Seats.

Churches Are Now to Be Thrown Open
to Meet the Revival
Tide.

MANY PASTORS WERE AROUSED.

Seventy Ministers Held a Meeting Yesterday
and Unanimously Decided to Continue
the Work at Cooper Union
Next Week.

The revival spirit broke out strong at
the Moody meeting in Cooper Union yester-
day. Scores of agitated sinners stood

"EAST HALL" ON VIEW.

First of the Improved Dormitories of the
New York University Shown
to Guests.

A private view of the large dormitory or
residence hall which has just been completed
on the grounds of the New York Univer-
sity College at Morris Heights, one mile
north of Washington Bridge, was given yester-
day.

This building, known as East Hall, is the
first of five which are to be built by the
New York University. It cost \$180,000
complete, and is the result of an anonymous
gift. Work has not yet been begun
on the other four, but will be at an early
day. The new hall was open for inspection
from 10 a. m. to 5 p. m. Light refresh-
ments were served in the basement rooms
at 3 p. m., and a large number of the col-
lege mandarin club entertained the visitors in
the music room. A large number of in-
vited guests were present. Chancellor
Henry Mitchell MacChesney received those
who called and led various parties through
the building, explaining its valuable fea-
tures.

The hall is four stories high in addition
to the basement. It is designed for 112
students, and the arrangement of the rooms
into suites combines the best features of
both the Yale and Harvard plan. The in-
terior is made impressive by Ionic columns
of Indiana limestone three stories in height,
supporting a massive entablature of the
same stone. The chief material used in the
building is yellow pressed brick. The roof
is of Spanish tiles. In one place, how-
ever, glass tiles are introduced for a
skylight with fine success.

Some of the novel features of the build-
ing are bicycle rooms, a music room, im-
mense storage rooms, and reception rooms.
These provide for the storage of 1,200 bicy-
cles and as many trunks. The rooms are
all nicely furnished, steam heated, lighted
by electricity and conveniently arranged.

This new hall forms one side of a pro-
posed quadrangle of dormitory buildings
which will be exact duplicates of it. As
this one, facing east, has been christened
East Hall, so the others will be called
West Hall, South Hall, North Hall, South-
east Hall and Southwest Hall. An im-
mense dining hall will be erected at one
end of the quadrangle.

The students will have possession of East
Hall to-morrow.

Two years ago but a single building stood
on the site selected by the New York Univer-
sity. Now the twenty-two acres con-
tain a score or more of college buildings,
lecture rooms, halls and other structures. A
monument, composed of interesting bits of
decorative stone from the old university
building in Washington square, is a marked
ornament on the new campus. Ohio Field,
devoted to Athletics, is encircled by a fine
quarter-mile cinder track, and has ample
space for football, baseball and other
athletics. There is also a well-equipped
gymnasium near the field.

liam Aylott, on the charge of criminally

THE TREATMENT THAT CURES.

How Doctor Copeland's Wonderful Medication Does Its Beneficent Work---It
Reaches, Soothes and Heals Every Part of the Mucous Membrane,
Curing Invariably All Forms of Catarrhal Disease of the Nose, Throat,
Vocal Cords, Bronchial Tubes, Lungs and Deafness---Doctor Copeland's
Famous Symptom Questions, Describing Disease in Its Different Forms.

THE TREATMENT THAT CURES.

Dr. Copeland's new treatment,
that has lifted the darkness and blight of the
word "incurable" from hundreds of thousands
of cases of Catarrh in the Nose, Bron-
chial Tubes and Lungs, works its curative ac-
tion for two reasons:

- (1) It reaches every sore spot,
from the orifice of the nose to the
deepest part of the lungs, to the
innermost recesses of the middle
ear.
- (2) Instead of irritating, inflam-
ing and feeding the fires of the
disease, it soothes, quiets, heals
and cures.

What is this treatment that cures these con-
ditions, once regarded incurable? By what pro-
cess does it restore the diseased membrane, re-
move the poison and relieve the soreness of
disease? Let the experience of persons cured
and being cured tell.

HOW IT CURES COMMON CATARRH.

Here is a patient taking treat-
ment for Catarrh of the Head. He breathes the
soothing medication through his nostrils, and the
nasal channels open up, the stuffed-up feeling
in the head leaves and he can breathe naturally
through the nose again. The dull pains across
the front of the head fade away, and the nasal
membrane is soothed until the inflammation and
soreness are all gone. The bad odor of the
breath passes away, and the lost sense of smell
returns. The dripping in the throat is checked,
the nose does not stop up towards night any
more, the annoying and annoying have ceased,
and the discharge from the nose grows less and
less, and finally stops altogether. The disease
has been checked and eradicated from the sys-
tem before it ever reached his throat. It has
not been driven down into his throat or into
his lungs or into his ears, as is so often done
by other treatments.

HOW IT CURES CATARRH IN THE THROAT.

Here is another patient who had
Catarrh in the head. He caught cold after
cold, and the disease spread down into his
throat. He breathes and drinks in the disease-
producing medication. It bathes the membranes
of his head and throat. The soreness of the
head and throat becomes less and the desire to
bark and spit is disappearing, the sense of
taste is returning, and the voice again becomes
soft and melodious. There is no more gagging
and vomiting in the morning. No longer does
every exposure to the weather result in a
stuffed-up throat that becomes sore and in-
flamed, and no longer does he find his throat
and tongue dry as chips when he wakes from
an unrefreshing sleep.
